

# Multifile

## Flexibility for every need

The individually rotatable levels can be adjusted based on the size and format of the materials to be stored. This allows space-saving, visually attractive storage of a wide range of items — from folders to multimedia accessories to storage containers.

**Product features:**

- Individually rotatable levels
- Add-on levels for later expansion
- Load capacity per level: 75 kg
- Stable, 5-armed star base
- Edge profiles and handles with premium aluminum look
- 80 cm in diameter

# Squarefile

## Four-sided versatility

With multifunctional accessories and a slim design, the rotatable square column keeps things in stylish order. Its possibilities include use as presentation furniture for exhibition areas all the way to room-height bookshelves.

**Product features:**

- Fully rotatable column
- For DIN-A4 folders and folios
- Add-on levels for later expansion
- Load capacity per level: 60 kg
- 4-armed star base
- Levels equipped with 2 mm bumper edges on the side for stability and durability
- Dimensions: 69 × 69 cm (diagonal: 97 cm)

# Compactfile

## saves space in the right place

The economical alternative to conventional storage shelves is completely rotatable and especially suitable for compact storage and archiving of items that can be stored in a V-shape.

**Product features:**

- Fully rotatable column
- For DIN-A4 folders and folios
- Add-on levels for later expansion
- Load capacity per level: 75 kg
- Stable, 5-armed star base
- Edge profiles with premium aluminum look
- 80 cm in diameter

Compartment shelf for individual division of storage space

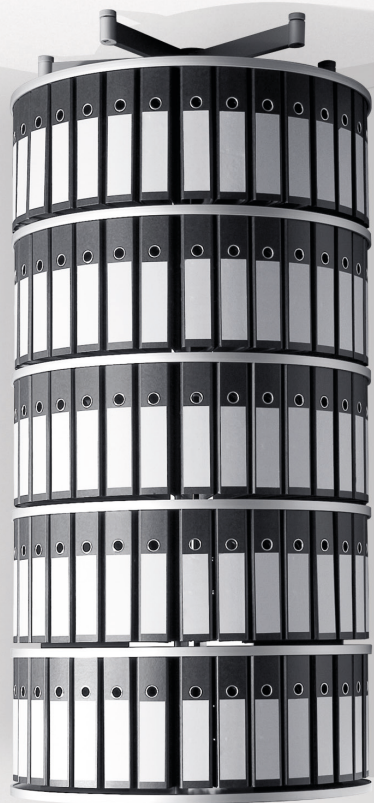

## Whether at home, at the office or in the waiting room space is expensive.

Rotafile's clever storage concept is right on the money. Compared to conventional shelf systems, the rotating shelves achieve maximum capacity on the smallest footprint to efficiently gain space.

With the three models Multifile, Compactfile and Squarefile, Rotafile provides movement and always shows its flexible side. The rotating shelf columns are suitable for a wide range of applications, from pure folder storage to an elegant space-saving version.

With a load capacity of up to 75 kg per level, Rotafile can take whatever you dish out. A real space saver with power and brains.
